Due to multiple requests we have added EZ-Pull Line Sets in various lengths for residential system connection. These are in addition to the line sets shown on Pages 275 and 727 in our REM 2017 Catalog.

E-Pull Tube Sets

EZ-Pull line sets feature white, polyethylene foam insulation with a tear resistant exterior. Large lines are independently insulated with markings per foot. UV resistant, and paintable. Manufactured to ASTM B743 standard and meets ASTM E84 for smoke and fire resistance.

Suction line only insulated – braze connection ends
